**CaffExpò: an informal debate  
on the theme of Expo 2015**

**"Feeding the planet, Energy for life"**

Sharing experiences and promoting solutions on the big issue of sustainable development: this is the objective of CaffExpò, a series of events organized, like in the ancient "literary café", in an informal place, in order to promote the interaction between participants. During each event, a guest speaker is invited to address a specific topic. He is continuously "challenged" by a discussant, who expresses the general ideas of the public on the issue.

## EXPO 2015: FEEDING THE PLANET, ENERGY FOR LIFE WHAT THE EU COULD BRING TO THE EXPO MILAN AND WHAT THE EXPO MILAN COULD BRING TO THE EU?

**Location:** La Patinoire, Chemine du Gymnase, 1 (Bois de la Cambre) - 1000 Bruxelles

**Introduction on CaffExpò** by Ettore Capri, Director of OPERA, Università Cattolica del Sacro Cuore, Italy

- Ambassador Ferdinando Nelli Feroci, Permanent Representative of Italy to the EU
- David Wilkinson, European Commission's Coordinator for Expo 2015

**Moderator:** Pier Sandro Cocconcelli, Director of UCSC ExpoLAB, Università Cattolica del Sacro Cuore, Italy

The Expo 2015 in Milan coincides with the closing year of the Millennium Development Goals and is the halfway point of the Europe 2020 strategy.

Expo 2015 will bring to the fore topics of key importance to many EU initiatives and policies. With the potential to reach millions of visitors, the Expo 2015 will hence be the occasion for the EU to communicate its key contributions and successes in the fields of food and sustainability.

More than that, it will be the ideal opportunity for an open and forward-looking exchange with citizens, with further involvement of the citizens in future policy development.

This CaffExpò will aim to informally present and discuss ideas for the EU contribution to the Expo Milan.

Please note that registration is compulsory. Places are limited, so please confirm your participation as soon as possible:
